

The Voice of our Customers

Pall Cleanliness Cabinets A 'Must Have' for Component Cleanliness Assessments.

As fluid systems become more sophisticated and less tolerant to dirt, controlling and measuring cleanliness has become a vital part of the manufacturing process. Many customers rely on Pall's Cleanliness Management system as the best way to avoid contamination. Read what your peers are saying about their experience using Pall Cleanliness Cabinets to extract solid contaminants from parts and components.

Our solutions allow you to meet ISO18413, ISO16232 and VDA19 standards.

PALL CLEANLINESS CABINETS CUSTOMER STATISTIC

100% of surveyed customers agreed with the following statement:

“ Pall Cleanliness Cabinets help to ensure the quality of components by helping accurately, reliably and repeatedly assess the cleanliness of manufactured components. **100%**”

Source: Survey of users of Pall Cleanliness Cabinets

PALL CLEANLINESS CABINETS CUSTOMER FACT

“ We purchased PCC over other products for its ease of operation features.”

Source: Major Global Car Maker, Metallurgical Engineering

PALL CLEANLINESS CABINETS CUSTOMER FACT

A Fortune 500 automotive & transport company purchased PCC over other products for its low blank value, ease of operation, and low maintenance features.

Source: Manufacturing Engineering, Fortune 500 Automotive & Transport Company

PALL CLEANLINESS CABINETS CUSTOMER FACT

A Fortune 500 automotive & transport company confirmed that the inclusion of a PCC lowered the number of units requiring re-work by **10-30%**

Source: Manufacturing Engineering, Fortune 500 Automotive & Transport Company

PALL CLEANLINESS CABINETS CUSTOMER TESTIMONIAL

“ PCC has allowed for a standardized process for multiple employees to perform cleanliness tasks.”

Source: Quality Professional, Medium Enterprise Automotive & Transport Company

PALL CLEANLINESS CABINETS CUSTOMER FACT

A Laboratory, Science, or Technology professional has agreed with this statement:

“ Pall Cleanliness Cabinets help to ensure the quality of components by helping accurately, reliably and repeatedly assess the cleanliness of manufactured components.”

Source: Quality Professional, Medium Enterprise Automotive & Transport Company

PALL CLEANLINESS CABINETS CUSTOMER STATISTIC

“ 75% of surveyed customers purchased PCC over other products for its ease of operation feature. **75%**”

Source: Survey of users of Pall Cleanliness Cabinets

PALL CLEANLINESS CABINETS CUSTOMER FACT

A Fortune 500 automotive & transport company benefitted from greater accuracy and repeatability of component cleanliness results and faster component cleanliness results since using PCC.

Source: Manufacturing Engineering, Fortune 500 Automotive & Transport Company

PALL CLEANLINESS CABINETS CUSTOMER TESTIMONIAL

“ The PCC is very easy to use and it facilitates accurate/repeatable results.”

Pall Cleanliness Cabinets for Component Cleanliness Assessment

PCC Features

- Easy to install and use
- Controlled cleanliness environment
- Super mirror stainless steel extraction enclosure
- Pressurised solvent dispensing and recycling circuits
- Full work area access for service operation
- Requires only a power source and exhaust vent

Features and Capabilities

	Pressure Rinsing	Ultrasonic (option)	End-use Simulation	Dims (W x D x H mm)	Typical Parts
PCCXS	Yes	Yes	No	1000 x 500 x 1200	Small bearings, small gears
PCCS	Yes	Yes	No	1072 x 785 x 2101	Injectors, turbo-chargers
PCCM	Yes	Yes	No	1552 x 785 x 2101	Pistons, rods, camshafts
PCCL	Yes	No	No	2095 x 911 x 2304	Large cylinder blocks or heads
PCCXL	Yes	No	No	2495 x 1215 x 2662	Very large cylinder blocks or heads, hydraulic cylinders
PCCFR	No	No	Yes	Depends on the model	Pipes, hoses, small cylinders

All the PCC series cabinets comply with the European machinery Directive 2006/42/EC, Low voltage 2006/95/CE and Electromagnetic compatibility 2004/108/CE and are fully CE compliant.
